AMS_BiosProPC

Introducing the most innovative, unique and very accurate Biorhythms graphic program ever on the market!

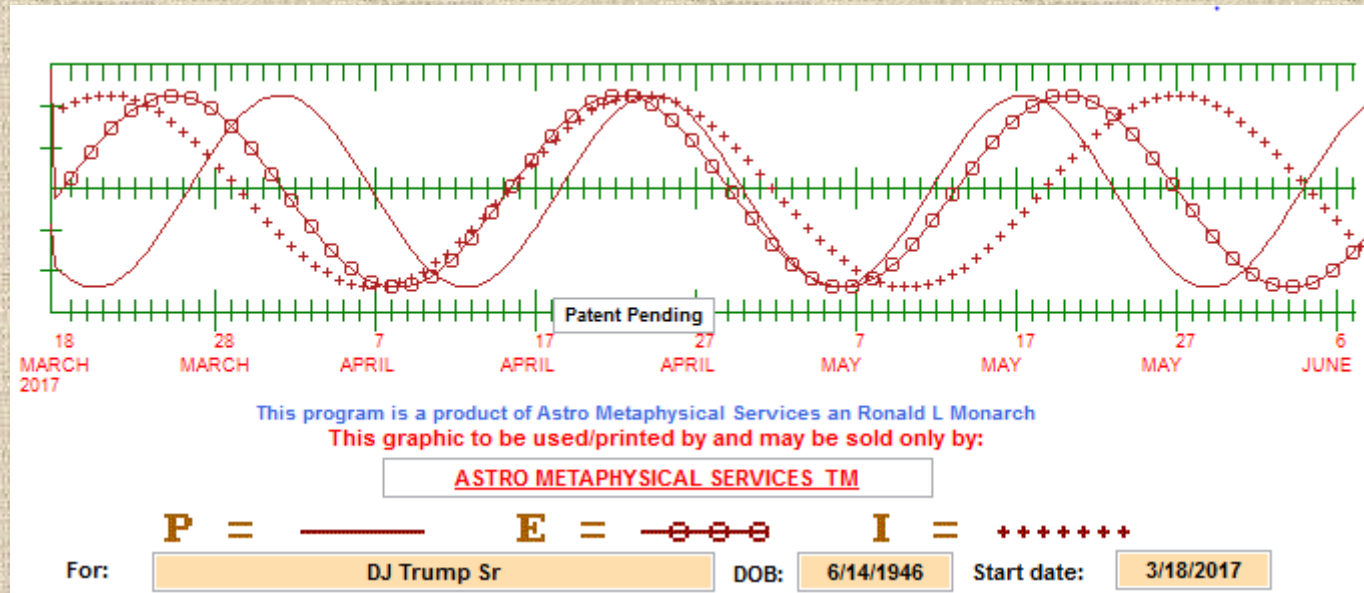

All Biorhythm graphics are accurate only when entering/using an accurate birthdate!

This computer Biorhythms graphics program, for personal and/or professional use, is patent pending and includes proprietary graphics production techniques that no other Biorhythms computing program uses. These proprietary techniques and ideas are the specific development of Ronald L. Monarch as owner and operator of Astro Metaphysical Services!

This PDF will show and describe the operation of this AMS_BiorProPC computing program, giving examples of the Biorhythms graphic charts that one is able to produce with this Biorhythms computing program.

About AMS_BiosProPC

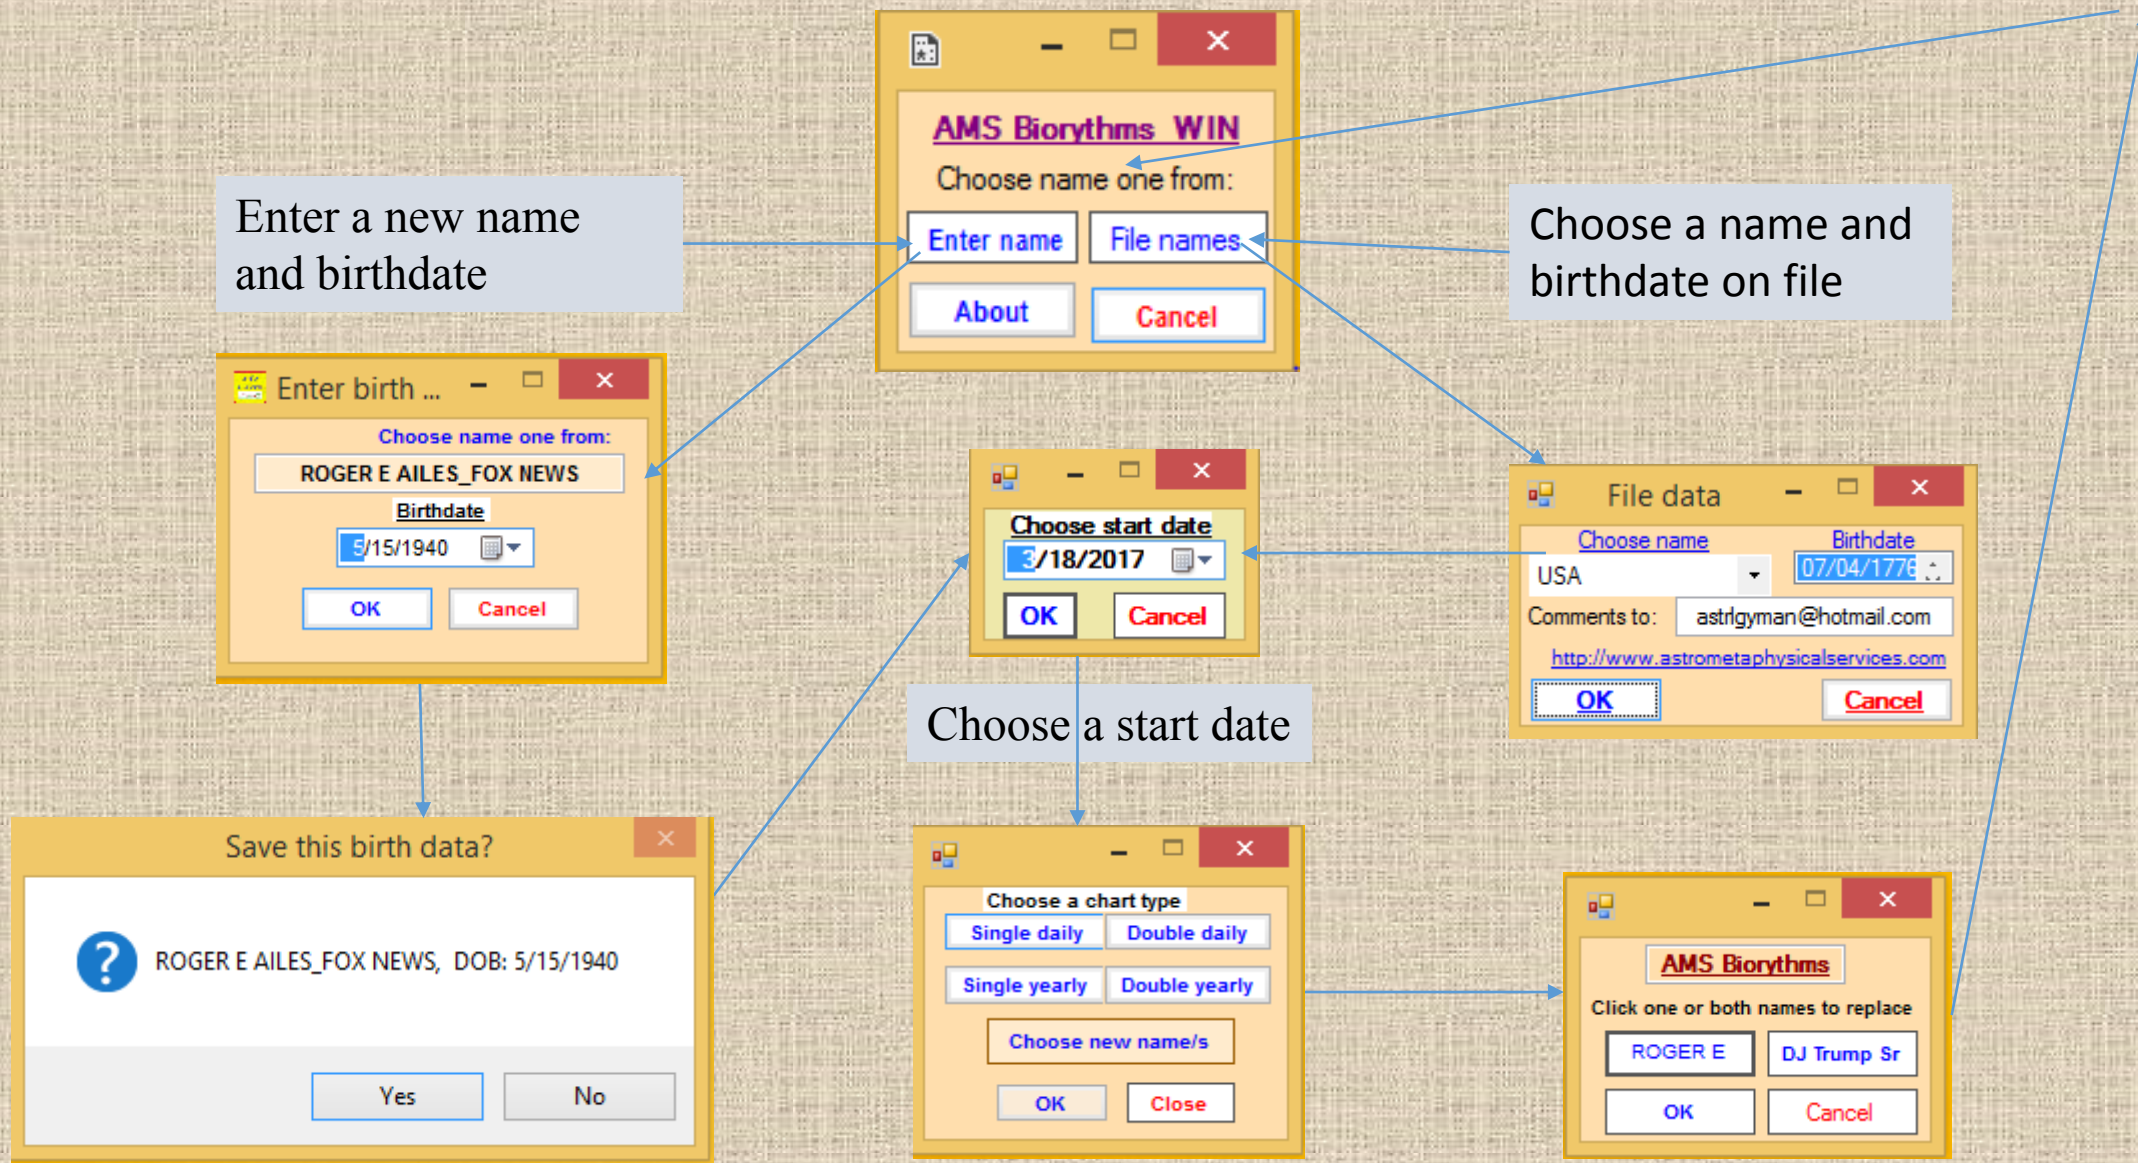

This AMS Biorhythms program is an innovative Biorhythms computer program unlike any other in existence to be operated on PCs and laptops! Monarch and Astro Metaphysical Services is also working on programming this AMS Biorhythms program to be used on other operating systems and all phones and tablets. Since this is a Biorhythms program **patent protected** by **Monarch and Astro Metaphysical Services** there will be no other Biorhythms program like this one for several years!

Monarch, as owner and operator of Astro Metaphysical Services, has innovated Biorhythms and Biorhythms programming in several ways, as seen in the first graphic above!

Monarch, as owner and operator of Astro Metaphysical Services, has innovated Biorhythms cycles graphics with graphics representations that are more easily understood and interpreted, as also seen in the above graphic of a single entity biorhythms graphic! The above Biorhythms graphic and other Biorhythms graphics included herein are examples of Biorhythms graphics that can be produced with Monarch's AMS_BiosProPC computer program!

Initially Monarch innovated biorhythms graphics production by distinguishing the various rhythms with a graphic distinction for each of the three rhythms. This enables a quicker understanding of which cycle wave/s we are focusing on. Thus we are better able to distinguish the manner of interaction through each wave.

A demonstration of Monarch's patent protected daily graphic showing the interaction of two entities.

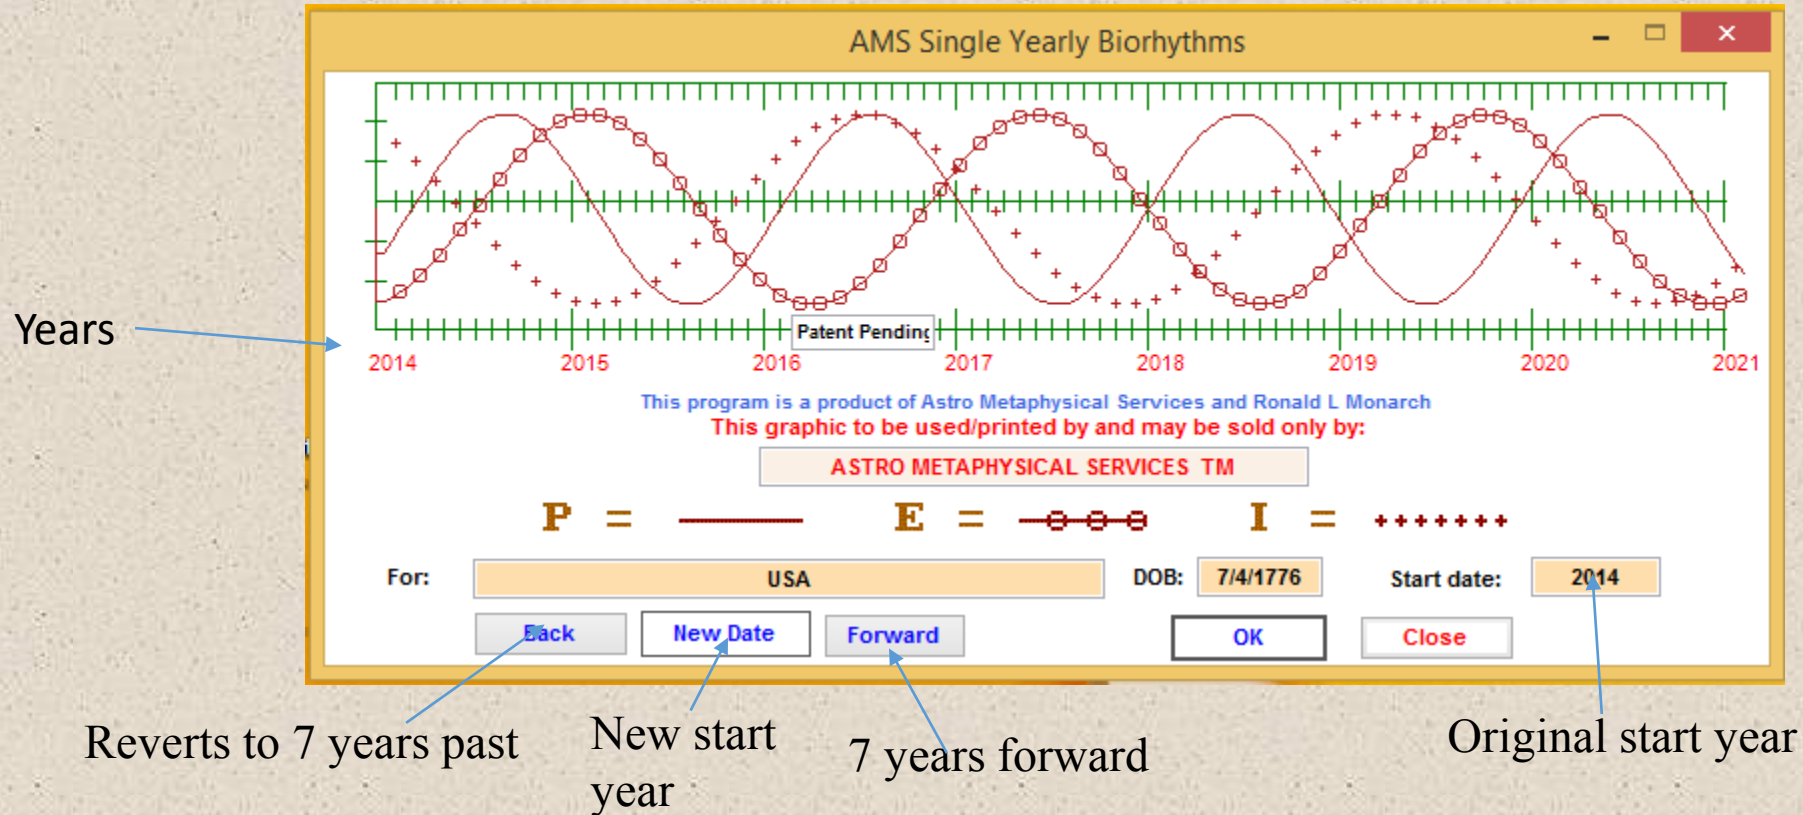

As the next step in Biorhythms graphics innovation, Monarch decided to program the biorhythm cycles of two separate entities onto one graphic representation! With this double entity daily graphic representation we are able to better see the manner in which any two entities (animal/business/person/situation) are likely to interact with each other. Double entity Biorhythms graphics are only accurate with proper birthdates/start dates!!

The next innovation to Biorhythms graphics representation by Monarch and Astro Metaphysical Services is the invention of, and introduction to the graphing of **physical**, **emotional** and **intellectual** cycles of an entity through the months of any seven year period. Since the **monthly** graphing of each full cycle does extend beyond twelve and twenty-four months, Monarch did originally call this graphing a "single yearly Biorhythms graphic". The study of such graphics by Monarch and Astro Metaphysical Services has shown this "monthly/yearly" cycle graphing tends to dominate over the daily cycles.

Monarch's and Astro Metaphysical Services's Claims I

Ronald Monarch and Astro Metaphysical Services are, at this time, the only true Biorhythms expert worldwide!

I, Ronald Monarch, do claim to be the only true Biorhythms expert worldwide due to the fact that I have been involved in the study of, innovation of and interpretation of Biorhythm cycles since at least 1988. Unlike other supposed Biorhythms analysts Monarch is not a newcomer to the understanding of Biorhythms, Biorhythms cycles and Biorhythms implications!

- This program is **useful** in that this program points out the manner and probable dates of any interaction between any two individuals and/or other entities/life situations. Therefore this program can be used to analyze any interaction/situation.
- Monarch, as the author/inventor has developed/invented the idea of graphing the daily cycles of a second other entity/situation directly over the daily cycles of the first entity/situation on the same graph for an easier/quicker view of the manner in which either entity/situation is affecting the other. Such is a specific invention produced by, and through, the research and development of Ronald L. Monarch as owner/operator of Astro Metaphysical Services.
- Monarch as the inventor has also developed/invented , both, the single yearly biorhythm cycle and double yearly biorhythms cycles. Such has not been proposed prior to such invention by Ronald Monarch.
- Monarch, as author/inventor, has studied, and demonstrated, the manner in which the daily and yearly cycles work in unison to indicate, and influence, the interactions during any entity's lifecycle!
- Monarch, as author/inventor, has demonstrated the effectiveness and viability of the workings and implications of all above mentioned biorhythm cycles through interpretations, lectures, writings and other means.
- Such of Monarch's Biorhythms explanation does go beyond the descriptions of Gittleson and other so called biorhythm analysts. Thus Ronald Monarch is apparently "**the only true Biorhythms expert worldwide**"!
- Monarch as this author/inventor is in the process of writing a book on the voracity and indications of the manner in which biorhythm cycles describe and portray historic and future events/situations.
